PROFESSIONAL SUMMARY

Analytics professional with 3+ years of experience at Mastercard delivering **financial, business, and data analytics solutions** across the payments ecosystem. Expertise in **revenue analytics, KPI monitoring, financial performance analysis, stakeholder management, and business intelligence**. Proficient in **SQL, Python, and Power BI**, with a proven track record of transforming complex datasets into actionable insights that support **business growth, profitability, and strategic decision-making**.

EDUCATION

- **BS (Earth Sciences)** **CPI - 8.8/10**
Indian Institute of Technology, Kanpur *July 2019 - June 2023*
- **Minor Degree (Industrial Management Engineering)** **CPI - 8.9/10**
Indian Institute of Technology, Kanpur *July 2019 - June 2023*

EXPERIENCE

- **Data Analyst II - Mastercard** Pune
Full-time *September 2025 - Present*
 - **Stakeholder Collaboration & Analytics Delivery:** Partnered with **3+ business and client teams** to translate requirements into **KPIs, dashboards, and analytics-ready datasets**, enabling business performance tracking, executive reporting, stakeholder alignment, data-driven decision-making, and strategic initiative prioritization.
 - **Large-Scale Data Analysis & Performance Optimization:** Analyzed **3B+ transaction records** across customer, product, and merchant domains, reducing processing time by **85%** (8 hours to 1.2 hours) through query optimization, accelerating business and financial reporting while improving operational efficiency.
 - **Data-Driven Business Impact:** Built analytics pipelines for Mastercard's Test & Learn platform, enabling data-driven decisions that generated **\$3.5M in revenue**. Developed and monitored **financial, customer, and retail KPIs** to support revenue growth, performance measurement, strategic planning, and executive decision support.
- **Data Analyst - I - Mastercard** Pune
Full-time *June 2023 - July 2025*
 - **Large-Scale Data Preparation & Analysis:** Prepared, cleaned, and aggregated **2TB** of client data using Spark and SQL to build analytics-ready datasets, improving data availability and analysis turnaround time by **60%**.
 - **SQL Query Optimization for Analytics:** Optimized analytical SQL queries using indexing, partitioning, and efficient joins, reducing query runtimes and compute costs by **80%** while improving accuracy and reliability of business reports.
 - **Data driven Business impact:** Enabled critical **business KPIs (footfall, revenue growth)** by converting business problem into scalable code which enhanced **data reliability** and accelerated **stakeholder insights**.
- **Data Analyst Intern - Mastercard** Pune
Summer Internship *May 2022 - July 2022*
 - **ETL Data Automation:** Partnered with global conglomerates, to automate **10+ data feeds** using enterprise ETL tools to load metrics, attributes, hierarchies, reducing manual intervention by **75%** across recurring data workflows.
 - **SQL Development:** Designed and optimized SQL queries to validate data pipelines, load KPIs, and support ETL processes through joins, aggregations on Mastercard datasets, improving end-to-end runtime by **20%**.
 - **Database Space Optimization:** Collaborated with consulting teams to address database space constraints by eliminating redundant data and applying compression techniques, improving overall system efficiency by **3 times**.

PROJECT

- **Project: Ganga water quality assesment using ML techniques** Prof.Rajiv Sinha IITK
SURGE INTERN *2022*
 - Analyzed **multi-city geochemical datasets** to identify key environmental factors impacting water quality, applying statistical analysis and exploratory data analysis to generate actionable insights.
 - Built **machine learning models** using **ANN, Random Forest, Lasso, Ridge, and XGBoost** with feature engineering and scaling techniques to predict **WQI, pH, and electrical conductivity**, improving predictive accuracy and supporting data-driven decision-making.

ACHIEVEMENT AND CERTIFICATIONS

- Cleared **CFA level 1** with **75 percentage** in all 10 subjects
- Cleared **NISM research analyst** certification conducted by **Securities and Exchange Board of India**

SKILLS SUMMARY

- **Programming Languages, Libraries & Tools:** SQL, Python, Scikit-learn, Pandas, Numpy, Jira, SSMS, SSIS
- **Machine learning toolkit:** Scikit learn, Keras, Tensorflow, Scipy
- **Management skills:** Decision Making, Finance skills, Problem Solving, Communication, Team Collaboration
- **Finance & Investment Analysis:** FSA, Equity Valuation, Quantitative Methods, Portfolio Management
